

Master Carpenter

Primary Function

Candidates must be punctual, able to perform elite quality craftsmanship, bring a positive “can do” attitude, possess leadership and training skills and take advantage of opportunities to grow in their craft. Works with Foreman and Superintendent to assist construction of the overall project.

Responsibilities

- Demonstrate a professional demeanor with clients and co-workers in actions, attitude and language.
- Maintain positive and respectful relationships with other employees, subcontractors and clients.
- Maintain complete confidentiality of information pertaining to the company and other proprietary information.
- Direct, train and lead field personnel to complete jobs within the scheduled timeframe.
- Work with field supervisors to ensure that all material and equipment is available to complete scheduled work.
- Work with job superintendent to ensure all RCCI code, quality and safety standards are met.
- Ensure the accuracy of work by checking completed projects and correcting problems as needed.
- Meet or exceed client requests and code specifications.
- Interpret construction drawings and build structures to meet drawing specifications.
- Keep technical and industry knowledge up to date.

Minimum Requirements

- High School diploma or GED equivalent.
- Hold a valid driver’s license with a driving record deemed insurable.
- Minimum of one (1) years’ leadership and training experience and (10) years’ experience in all phases of building (e.g. layout, framing, concrete foundation systems, siding, and finish carpentry).
- Leadership skills with the ability to work independently and as a team.
- Ability to read and understand CD’s in order to measure, mark, layout and arrange materials based on blueprints, drawings and/or instructions from supervisors so as to complete assigned projects.
- Must have a thorough understanding of carpentry principles and methods and able to solve basic mathematical problems quickly and accurately.
- Ability to perform complex detail work to elite quality standards (e.g. spiral stair case, scribe and join finish materials, creative/one-of-a-kind woodwork, etc.).
- Proven ability to identify and resolve complex issues related to carpentry.
- Time management: Proven ability to establish and complete tasks by a deadline.
- Proven ability to organize and prioritize schedules, tasks and allocation of resources.
- Willing and able to train Apprentice and Journeyman Carpenters and perform other duties and tasks as assigned.
- Must be able to satisfactorily complete safety programs as required.
- Ability to lift 100 lbs.

The “Ramey Way”

Ramey Construction’s mission is to build a better community inside and outside the walls of our company by demonstrating integrity, passion for hard work and world class craftsmanship in everything we do! A finished product that reflects our innovation, passion and pride in what we do is what drives us to be the best of the best. If there is a problem, we find a solution. If a design detail doesn’t work, we address it. If something can be done better, we do it. This is the “Ramey Way.”

At Ramey Construction (RCCI), our management team is committed to our “people first” value through honest and open communication with our employees. To this end, we are intentional about demonstrating the value of our workers by providing a career where personal and professional advancement is not only possible, it is encouraged.
